SOLDIERS' HUTS AND LARCENY CHARGE

ATTEMPTS TO STEAL WINDOWS DESCRIBED IN COURT.

CHINESE FINED \$25

Taking advantage of the fact that the officers and troops of the Somerset J.I. are at camp and have vacated their hutment at Shanshui-pu, several Chinese have, during the past week or so, been helping themselves to glass window panes, the loss numbering up to the present about 50 in all, besides damaging the wood which is specially nailed to protect the windows from being broken.

On Sunday evening, a Hakka was seen by the sentry on guard in the act of pulling a plank of wood away, with the intention of stealing the glass panes. He was arrested and handed over to the Shanshui-pu police.

At the Kowloon Magistracy this morning the Hakka made his appearance before Mr. Whyte-Smith on the charge of intended larceny at the hut, and of trespassing in the Camp without permission.

"Merely Passing Through"

The defendant admitted the second accusation, and said that he was merely passing through the camp on his way to get a job as an earth cooler.

The sentry who was on duty at the time, Pte. G. Baylis, gave evidence to the effect that he saw the defendant pull the wood plank from the window, and said that when he called out, the defendant dropped the wood directly under the window, but was caught after a chase.

Lance-Corporal W. H. Didimus, of the S.L.I., who examined the defendant in the guard room, stated that that particular hut, which was the officers' quarters in Nanking Barracks, contained nothing, but some of the other huts contained some baggage.

The Magistrate pointed out that the defendant could not give a proper explanation and convicted him on the first charge, the second, that of trespassing, being automatically dropped. He imposed a fine of \$5, with the alternative of three weeks' hard labour.

TRIBAL UNREST IN AFGHANISTAN

BRITISH MINISTER LEAVES LONDON FOR KABUL

DISTURBANCES OVER?

Rugby, Yesterday.

The Secretary for India was asked whether he had information of tribal unrest on the Indian frontier and in Afghanistan, and when it was expected that the British Minister would be able to proceed to Kabul.

He replied that a certain section of the Shinwari tribe had captured the Afghan frontier post of Spina Kotha, on the Kabul-Peshawar Road, on February 10, but this post was recaptured by the Afghan Regulars on February 18. Communication on the road was suspended during this disturbance, but so far as he was aware, would now be restored.

The British Minister left London this morning and it was expected that he would be able to reach Kabul some time in March.—British Wireless Service.

ADMINISTRATIVE OFFICER'S DEATH

KILLED BY STONE DURING ATTACK BY TRIBESMEN

OFFICIAL CONFIRMATION

Rugby, Yesterday.

Mr. W. Lunn, Under-Secretary for the Colonies, has confirmed the report that Christopher Barlow, Administrative Officer of the Nigerian Political Service, died on February 9 from injuries received in an attack by Pagan tribesmen in the Shendam Division of the northern provinces, death being due to a fracture of the skull caused by a stone. There was no connection between this occurrence and the disturbances in the southern provinces last December.—British Wireless Service.

GAMBLING FINES

Eight Chinese were placed in the dock of the Kowloon Magistracy this morning before Mr. Whyte-Smith on charges of playing mah-jong in \$12. Canton Road. The joint keepers were fined \$25 on their behalf, all with costs, the defendants were fined \$5, with the alternative of five days' jail. The money found (\$6) was confiscated.

NO TROUBLE AT CONFERENCE

RUOMUR THAT STIMSON "LEFT IN A HUFF" DENIED

NO CONCLUSION

GERMANY AND "POCKET" BATTLESHIPS

London, Yesterday. Reuter learns that there is no foundation for the statement that there was any trouble at the meeting of British, French and American naval delegates on February 14 and that Mr. Stimson left the meeting in a huff. The discussions in fact, were completely amicable and the experts to-day considered the question of capital ships, particularly as regards how special ships should be replaced, but no conclusion was reached.

Mr. Hamilton here remarked to Traffic Sub-Inspector Alexander that the doctor had his office there and his car must be handy.

The Police said that the obstruction complained about was the fact that Dr. Bunje's car was on the outside of three cars which were parked beyond the limits of the parking stand, which was full.

The position of Dr. Bunje's car was such as to cause an obstruction to passengers going down Ice House Street from the Star Ferry.

STOP PRESS

Paris, Yesterday.

The Ministerial crisis leading to the downfall of the Tardieu Cabinet, came suddenly and dramatically, though not entirely unexpected in view of the determined hostility of the Left Parties. The dramatic element lies in the fact that M. Tardieu is lying ill—the victim of devotion to duty first at the Hague and then in London. Latterly he had one leg in London and the other in Paris, whither he temporarily returned to take the internal political situation in hand. M. Tardieu formed the Cabinet last October when M. Briand resigned.—Reuter.

New York, Yesterday.

Deep snow, intense cold, and hurricanes prevail along the Atlantic coast from Virginia to the Arctic circle. In New York 25 degrees of frost was registered.—Reuter's American Service.

tal ships France, Jean Bart, and Courbet. But, owing to the recent appearance of a new type of battleship—this taken as reference to the German vessel the *Ersatz Preussen*—France is now obliged to make use of part of that credit of 70,000 tons before the end of 1936, and the ship might be compelled to use it completely during this period should new ships of the same type be built.]

Problem of Figures

Rugby, Yesterday. It's expected that, although M. Tardieu, who is suffering from a slight attack of influenza and laryngitis, will be unable to return to London until later in the week, the heads of the delegations, with M. Baud representing France, will resume to-morrow their discussion regarding figures, which has been framed in the memoranda of the different delegations. The position now is that the experts have evolved a scheme whereby global and category methods of ascertaining and limiting naval tonnage figures are co-ordinated and that into this framework the actual tonnage figures have to be inserted.

The sets of figures put forward on behalf of the different Powers offer a basis for discussion by the delegation chiefs and are in the nature of things largely provisional, since the requirements claimed by one Power may have a repercussion upon the requirements claimed by another Power.

Task of Adjustment

The task of adjustment is important and delicate and may conceivably take some time, but so far it has proceeded quite amicably. Meanwhile, experts to-day resumed their study on special ships, such as training vessels, seaplanes and others from aircraft carriers, and of the minor varieties of tonnage their task is to find to

PARKING DOCTORS' CARS

MAGISTRATE REFUSES TO FINE OFFENDERS

A TYPICAL EXAMPLE

"As long as I am on the bench I shall refuse to fine a doctor in such a case."

This remark was made by Mr. E. W. Hamilton this morning when Dr. F. Bunje was summoned before him for causing an obstruction with his motor car in Chater Road at 12.55 p.m., on February 10.

Dr. Bunje admitted the charge but said that he had a statement to make in this connection.

Mr. Hamilton here remarked to Traffic Sub-Inspector Alexander that the doctor had his office there and his car must be handy.

The Police said that the obstruction complained about was the fact that Dr. Bunje's car was on the outside of three cars which were parked beyond the limits of the parking stand, which was full.

The position of Dr. Bunje's car was such as to cause an obstruction to passengers going down Ice House Street from the Star Ferry.

NO CHANCE FOR DOCTORS

Dr. Bunje told the Magistrate that there were seven doctors in Alexandra Building, and they had five cars. Invariably they (the doctors) did not come down to their office until 11 a.m., by which time the car stand was full. People left their cars on the stands all day and doctors who had to be about quite a lot during the day had no chance.

On the day mentioned in the summons he (Dr. Bunje) had an emergency case to which he might have been called out at any moment and therefore he had to have his car handy. When he came down to town in the morning he had driven around looking for a place to park his car and the only one available was a space in Statue Square, opposite the Hong Kong Bank.

That space he did not consider handy because, in case he was summoned hurriedly, valuable time would be lost by the walk he would have to take to reach his car. In the circumstances he had no alternative but to leave his car outside the stand in Chater Road.

A Wise Suggestion

Mr. Hamilton said that in his opinion doctors' cars ought to have a space reserved for them, the same as taxis.

Inspector Alexander replied that there were many doctors in the Colony and space could not be reserved for all of them.

Mr. Hamilton retorted that as far as the heart of the city was concerned it only meant five car spaces in Chater Road, opposite Alexandra Building, and a few others opposite Union Building, where most of the doctors congregated. He then discharged Dr. Bunje with a caution, and made the remark quoted at the top of this report.

MILITARY OFFICERS SUMMONED

BREACHES OF THE MOTOR REGULATIONS

TREASURY ENRICHED

Lieut. W. A. H. Maxwell, K.O.S.B., was summoned before Mr. E. W. Hamilton, to-day, for causing an obstruction by parking his motor car outside Messrs. Jardine, Matheson and Co.'s office, at 12.25 p.m., on January 30.

He admitted the offence and added that the stand was full.

Mr. Hamilton: You could have driven on to Chater Road?—Yes.

Lieut. Maxwell was asked by the Magistrate why he had not appeared in Court, to which he said he was originally fixed for hearing.

The defendant explained that he had gone to Shanghai to play in the Rugby football inter-port match. He had given Capt. Abbott's driver a note to take him to Court. Apparently the chauffeur had lost the note, and when he appeared in Court another date

PEOPLE WHO LIVE IN MISERY

THE UNHAPPY FATE OF THE PEASANT IN RUSSIA

SENT TO REMOTE REGIONS

London, Yesterday. The fate of the Kulaks or rich peasants in Russia under Stalin's five year industrial plan, which is enforcing in place of Lenin's new economic policy, is described by a Moscow correspondent, who states that by a recent resolution of the Soviet Central Executive, Kulaks in regions where Collectivism has been established must be expelled and their property confiscated.

Local Soviet officials are authorised to decide which Kulaks shall be expelled and which allowed to remain, but outside the area of the collectivist agricultural community. Expelled Kulaks will be sent to remote regions where labour is scarce or which is unpopulated.

In regions where Collectivism has not yet been enforced Kulaks are forbidden on pain of confiscation to sell, donate, let or divide their properties.—Reuter.

Report Awaited

Rugby, Yesterday. Mr. Henderson, the Foreign Secretary, was asked in the House of Commons to-day whether he had yet raised with the Soviet Am-

BELGENLAND IN PORT

A HAPPY CROWD OF TOURISTS

SUN SHINES ON THEM!

Our old friend the Belgenland arrived into port this morning, and tied up at Al buoy. We call her an old friend, because this is her sixth annual visit here. "You don't look a day older, either," remarked Miss Victoria, to which Miss Belgenland replied, "Well, you're looking pretty good yourself" or words to that effect.

As a matter of fact, our visitors could not have had a much better day to see Hong Kong and the Territories. Old man J.P. once in a while, decided to behave himself—and we hope he'll keep it up—and the Colony was seen at its best.

They tell us there are 402 world cruise travellers on the ship. Well, we didn't count them, but we are prepared to say there were quite a lot. A *China Mail* man, who was looking for a friend in the Hong Kong Hotel at tiffin time, got hopelessly bewildered, and gave it up. Instead, he stopped to "see and hear" what was in very truth "A Broadway Melody" which reminded him of other happy days in the land of Uncle Sam.

Bargains

It is always a mystery how these tourist ships arrive just in time for all the bargains that are going. Curiously, the permanent resident never gets a chance to pick up genuine curios, views, pictures, brass, and other knick-knacks at trifling prices. But there you are—all ports are alike—they will let the casual visitor have all the bargains, and leave the resident out in the cold. At least, that was the impression one gathered whilst waiting on the lighter for the tender to go ashore, idly listening to the blandishments of the salesmen the while.

There was a lighter which housed almost a complete emporium on the starboard side. It was noticed that one could even buy a pair of shorts there, and of course there were enough clothes and curios almost to fill the Belgenland itself. There seems to be a surfeit of canaries and other songbirds—as well as money—in Hong Kong, judging by the number offered for sale. Business, it was pleasing to note, was very good. It is a pleasure to see someone prosperous in these days of the depleted dollar.

A Busy Day

These tourists certainly keep busy. The first group were at 8.20 this morning to Kowloon, there to get the train to Canton. Another group left at 8.45 for Kowloon, after which a drive round the Territories was scheduled, with tiffin at the Peninsula Hotel. In the afternoon they were to "take in" the island, with tea at Repulse Bay.

Other groups were going up the Peak, or just strolling round Hong Kong, without any definite programme, during the morning, and various sight-seeing drives were arranged for the afternoon.

The tourists leave here for Manila at 8 p.m. on Thursday.

A full page of pictures of the Belgenland cruise will appear in to-morrow's issue of the *China Mail*.

A NEW POLITICAL PARTY AT HOME?

BEAVERBROOK TO LAUNCH "UNITED EMPIRE PARTY"

ALREADY 200,000 ENROLLED

London, Yesterday. Lord Beaverbrook has issued a manifesto launching a new political party—"the United Empire Party"—for the purpose of carrying into effect "the plain principles for which the Empire crusade was launched." On it he says that already 200,000 men and women have

joined the party. He added that the Captain was ill, and inquired if Lieut. Maxwell were prepared to appear for him.

Lieut. Maxwell replied that he had been asked to plead "guilty" on behalf of Captain Abbott and would pay his fine for him.

Magistrate: Ten dollars.

FALL OF FRENCH GOVERNMENT

DEFEATED BY CHAMBER ON A VOTE OF CONFIDENCE

MINISTERS RESIGN

NO EFFECT ON NAVAL CONFERENCE PARTY

Paris, Yesterday. The Government was defeated by the Chamber to-day, by 286 votes to 281 on the question of the abrogation of an article in the Social Insurance Bill, respecting the position of tradespeople's wives. The vote was made on a question of confidence and the House adjourned sine die.

Later, the Government resigned.

Resignations Handled In

Paris, Later. The Government's defeat was on a clause in the Budget dealing with assessment for income tax of small shopkeeper's wives. The Government had no alternative but to resign, in view that they had made the vote on a question of confidence.

After their defeat the Ministers hurriedly conferred and decided to see M. Tardieu, who is ill in bed. Two of them approached the bedside and assisted the

SIR CECIL CLEMENTI

"Anxious to Learn"
About Malaya

About 400 guests were present at the seventh annual dinner of the Straits Settlements Association (Singapore) at the Raffles' Hotel, on February 6, when Mr. R. M. Williams presided. Sir C. Clementi, the Governor, was present and in the course of a speech said that he was fortunate to have so early an opportunity of meeting the Members of the Association. They could not expect him as yet to express any views about Malayan affairs but the only useful thing he could say was that he was most anxious to learn the views, aims, and aspirations of the people in Malaya.

He trusted that no one would hesitate to see him whenever they had anything which he ought to know and his wife would also be glad if the ladies of the Colony would discuss with her, fully and frankly, how best to promote the welfare of women and children in Malaya.

Only by knowing each other's thoughts could they hope to co-operate and it was only by effective co-operation that good government, progress and prosperity could be secured.

ECHO OF THE MAY 30

AFFAIR

VICTIMS' FAMILIES NOT
SATISFIED

\$150,000 SOLATIUM

In a recent issue of the Shanghai Times, it was stated—

Trouble has commenced over the distribution of the \$150,000 paid by the Shanghai Municipal Council as compensation to the victims of the May 30 incident. Those who are entitled to participate in the distribution are not at all satisfied with the manner in which the huge sum is being apportioned, and claims that certain unequal distributions are being made have been voiced in the local vernacular press. The Eastern Times and other Chinese newspapers state that doubt has been raised by a section of the victims regarding the office expenses amounting to \$1,710 which has been set aside from the total amount.

Further, the payment of \$5,000 to two of the victims who were temporarily incapacitated as the result of the shooting, and the payment of \$2,000 to the families of the people killed, is not considered fair.

Left To Association

At the time when the cheque for \$150,000 was handed by Mr. Stirling Feasenden, Director-General of the Shanghai Municipal Council, to Mr. Yu Ya-ching, one of the Municipal Councillors and Managing-Director of the San Peh Steam Navigation Co., on behalf of the May 30 victims, it was understood that the distribution of the grant was to take place at the offices of the San Peh S.N.C. Actually, the responsibility of the Shanghai Municipal Council finished with the handing over of the money, the distribution being left to representatives of the Association of the May 30 victims. It was anticipated that there would be some disagreement over the apportionment of the money, particularly among the relatives of the victims. According to the Chinese Press, the trouble has commenced.

THEFT ON EMPRESS OF ASIA

WATCH STOLEN FROM ONE OF THE ENGINEERS

OTHER PROPERTY LOST

The C.P.S. Empress of Asia, which has been in the Kowloon Docks, undergoing repairs, has proved a popular rendezvous for thieves.

This morning at the Kowloon Magistracy, before Mr. Whyte-Smith, two charges of larceny were brought against Wong Wah, unemployed, and Wu Leung, an employee of the Docks, respectively.

The former was accused of the theft of a metal watch, the property of Mr. Frank Spencer, an engineer on the ship, and in the second instance Mr. Charles A. Stirling, Master-at-Arms, prosecuted Wu Leung for the theft of a Bourdon pressure gauge, valued at \$30, the property of the ship.

The Sergeant Gilling, who prosecuted, said that the second defendant was found by two Chinese watchmen on duty, on the deck, in a crouching position outside Mr. Spencer's cabin. This was at eleven o'clock on the night of February 16. They arrested him and took the man to Mr. Stirling, who later handed him over to Sergeant Marriott. On searching the thief it was found that he had concealed the watch in his left girdle.

Mr. Spencer pointed out that the defendant must have stolen the watch while he was asleep, as he always kept his watch hanging above his bed.

The defendant was given four months' hard labour.

With regard to Wong Wah, the prosecuting officer stated that when work was finished it was usual to have all the men searched, and when the Indian came to the defendant, the latter put both his hands up in the usual way, and in the left hand he held his cap. On examining the cap the pressure gauge was found.

Crouching on Deck
Sergeant Gilling pointed out that there had been several things stolen

Hong Kong, Tuesday, Feb. 18, 1930.

K.R.A. ACTIVITIES

Kowloon's miniature Parliament, or Municipal Council, have issued another annual report to their constituents, on the strength of which they will go to the "hustings" on February 28. The account of their stewardship makes no less pleasing reading than in former years. They have "made good" in every sense of the term. They have consolidated previous "gains." They have initiated new schemes in the direction of what the report terms "progression in communal amenities," and on the whole they cannot be accused of too much crowing or trumpet blowing when they claim to have attained "no inconsiderable success."

It is pleasing to note that yet again the General Committee expresses its thanks to the various Government officials for their courteous and helpful co-operation, without which much of its labour would indeed be in vain. In the past various Governors have not been slow to express their appreciation of the really valuable work carried out by the Association, nor have Governors and other Government officials been slow to avail themselves of the good offices of the Association in the matter of advice and assistance. The following extract

During the absence from the Colony of Mr. A. M. Bowes-Smith, who is departing on Home leave by the a.s. Hector to-day, the duties of secretary to the Musical Society will be undertaken by Mr. D. L. Strellet.

That he had had a breakdown and was trying to make up time was the excuse given to Mr. T. S. Whyte-Smith yesterday by a motor bus driver who was charged with travelling at 30 miles per hour on Tai Po Road. He was fined \$20.

Because he did not sound his horn when rounding a corner from Mody Road into Chatham Road, a Kai Tack bus driver was fined \$10 at the Kowloon Magistracy. He was further alleged to have taken the corner at a speed of 20 miles per hour.

Charged with failing to have full control of his motor cycle in Mongkok Road by riding on the petrol tank with a passenger on the saddle and another on the pillion, Mr. R. Lau was yesterday fined \$5 by Mr. T. S. Whyte-Smith, at the Kowloon Magistracy.

Li Lam, with a previous conviction of two months' jail, appeared before Mr. Whyte-Smith to-day, charged with the theft of 10 cents from the person of a Chinese paper-maker, and on pleading guilty was sentenced to six months' hard labour.

A collision between a private motor car and a bicycle had its sequel at the Kowloon Magistracy yesterday when the driver of the car was fined \$15 by Mr. T. S. Whyte-Smith for failing to report the accident. The rider of the bicycle, a boy, alleged that after the collision the driver of the car drove straight on without stopping to see if he was hurt.

A policeman's call to come down from the verandah of a house in Portland Street, at 4 o'clock this morning, when a Chinese was seen to throw some clothing down, had a sequel when the Chinese appeared before Mr. Whyte-Smith at the Kowloon Magistracy. He was sentenced to two months' hard labour, on admitting the charge of theft of clothes, the property of a Chinese widow.

Mr. L. Forrest, advertising agent, Bank of Canton Building, reported to the Police that some time between 5 p.m. and 9 p.m. on January 29, somebody stole from his office, on the fifth floor, a rain coat valued at \$10, a grey overcoat valued at \$4 and a small leather bag valued at \$4; while some time between 1 p.m. on Saturday and 9 a.m. yesterday an electric fan, valued at \$5 and a floor carpet valued at \$5 were also stolen.

We confidently recommend a study of the report in its entirety to our readers, even those whose habitation is on the Island. Therein they will be enabled to see for themselves the wide range of topics that have been treated during the year and the progress that has been made. It all makes very heartening reading when it is remembered especially that the Association itself can do nothing, being entirely dependent on the authorities for action. But nothing succeeds under a benevolent autocracy like "quiet endeavour," as the General Committee modestly phrases its public-spirited labours. Whether the new Governor should favour or disfavour civic reforms by, say, the creation of a Municipal Commission, cannot matter very much so long as in Kowloon, at least, there is a live body like the K.R.A. ever ready to co-operate with the responsible authorities in everything pertaining to "communal amenities." Whilst the Press is not mentioned in the expressions of thanks voiced by the General Committee, that is no reason why the Press on its part should refrain from congratulating whole-heartedly the Association as a whole on its splendid record of work during the year 1929, coupled with a sincere wish that it may no longer be spared to continue to labour for the betterment of the entire community within its jurisdiction.

The very next morning more than a score of well-known newspaper reporters, feature writers, and artists were on the M-G-M set with week contracts like regular actors.

The news scribes were instructed by the director to "be themselves" and not once during the entire filming did he arrange any of the business that occurs in the Press rows at the "trial" that progresses.

In the afternoon drama feature the newspaper men play important parts in the Court sequences, their reactions to testimony furthering the dramatic value of the screen portrayal.

La Plante plays the leading role in the production and the supporting cast includes George Barbier, Kenneth Thompson, Betty Bronson, Edward Nugent, Margaret Livingston, Paul Draper, Charles Hallahan, Charles Miller, Polly Moran, Marlene Dietrich, Sam Kydd, and Hallie Flanagan.

SEIZURE OF SWEEP TICKETS
SUMMONSES AGAINST STORE
AND EMPLOYEE

DECISION OF THE POLICE

In connection with the seizure of sweep tickets by the Police (exclusively reported in yesterday's *China Mail*), it is now learned that the Police have decided to take action under the Gaming Ordinance.

They have accordingly issued summonses against both the Singoro Co., the store in which the tickets were seized on Saturday, and the salesman who produced them to Chinese detectives when they visited the store and asked for sweep tickets. The price asked for the tickets which were valued at \$10 on the face of them, was \$15.50.

The tickets which the detectives inquired about were those issued by the South China Athletic Association, but a subsequent search by the Police led to the discovery of a number of tickets in sweeps run by other local organisations.

The salesman was taken into custody after the seizure of the tickets and removed to Police Headquarters where he was interrogated and subsequently released.

Date of Hearing

The summonses against the Singoro Co. and the salesman are fixed for hearing at the Central Magistracy on Thursday afternoon. It is probable that in the course of the case the working of the "get-rich-quick" syndicate, referred to by the *China Mail* yesterday will be revealed.

Should it not materialise, then the *China Mail* will make public at the conclusion of the case, the information which has been in its possession for some time and which prompted the leader of Monday, February 19, five days before the Police took action.

Mr. R. C. TREDWELL

Departure for New Post
in Melbourne

Hong Kong this morning said "Good-bye" to Mr. Roger Culver Tredwell, the popular Consul-General for the United States of America in Hong Kong, who was recently appointed to be Supervising Consul-General for America in Australia, with an office in Melbourne.

Mr. Tredwell and his wife are sailing on the *Changte*, which leaves to-day. Many friends gathered at Queen's Pier to see them off, and wish them "Good luck." Among those noticed were Commodore R. A. S. Hill, and Paymaster Lieutenant D. H. Pasmore (Secretary to the Commodore (Major-General J. W. Sandlands, C.B., C.M.G., D.S.O.), Captain Cameron, A.D.C. to the G.O.C. of the Troops, the Hon. Mr. R. H. Kotewall, C.M.G., L.L.D., and the Hon. Mr. J. P. Braga.

It is understood that most of Mr. Tredwell's time will be spent in Canberra, the seat of the Australian Federal Government. His office has supervisory jurisdiction over six U. S. Consulates in Australia. Mr. Harold Shantz has taken over the duties of acting U. S. Consul in Hong Kong.

REV. F. C. YOUNG
Condition Gives Cause
for Anxiety

The *China Mail* learn with regret that the Rev. F. C. Young, who is in the Matilda Hospital suffering from pneumonia, has had a relapse. His condition is serious, and on enquiry made this morning, it was stated that the patient has shown no improvement.

Fortune

Probate has been granted by the Probate Office of the Supreme Court to Mrs. Midzukoshi Nayo, in the estate of her husband, Bunsaku Midzukoshi, a Japanese carpenter, who died on August 18, 1929 at his residence in Amy Road. The estate is \$3,200.

Kwong Sau-po, otherwise Shau-alias Kyong So, left estate in the Colony amounting to \$2,600. Probate has been granted to his widow, Emily Flitzroy, and Jane La Verne.

"The Bellamy Trial"

When Monta Bell wanted to fill the Press seats in the Courtroom scenes for "The Bellamy Trial" coming on Thursday to the Queen's Theatre as a Metro-Goldwyn-Mayer feature, he just sent out word for his newspaper friends to help him. He didn't want anyone to say my reporters aren't the right types, the director, formerly a newspaper man, told his advisers.

The entire property is bequeathed to the widow upon trust until the son attains majority, when it will be given back to him to manage in any way he likes.

The committee of the Stock Exchange Mutual Subscription Fund has no intention of limiting the number of tickets.

CLOISONNE

How the Finished Article Is Made

To put it in a nut-shell Cloisonne is a kind of fine pottery with enamelled surface decorated with elaborate designs, the outlines of which are formed by small bands or fillets of metal. Many years ago the Byzantines excelled in this class of work, but at the present time China leads in Cloisonne Ware.

The production of a certain piece takes time, and requires very careful attention in all the different stages to produce perfect workmanship.

In the first place a design is drawn on a thin copper shell (already modelled to the desired object—it may be a vase, box or tray), and is then outlined with silver.

gold or brass wire. The shell is then dipped in enamel and subjected to a good firing which holds the wire in position, forming the design.

The first colours are then applied, this process is continued according to the quality of the work, until such time as the wired design is filled with the enamel.

So far so good—now the most difficult part is undertaken, that is the polishing. Under a steady flow of cold water the object is polished with a special kind of brimstone and great care is taken that no foreign matter is embedded in the polishing stone, which would cause the slightest surface scratch. If this happened the work of months and years is completely destroyed. Yet careful attention will overcome this and the finished art will remain a joy to the eye and the most wonderful piece of work one could ever imagine.

The vase reproduced above is one of a pair of vases exhibited at Messrs. Komor & Komor. They stand five feet high and are supposed to be the largest pair of cloisonne vases in the world.

The outstanding colour is a beautiful crimson. The flowers and leaves are all in their natural colours, and complete a really wonderful piece of superb art. Considering the height of the vase, they are exceptionally light in weight.

ALL ABOUT HONG KONG

(Continued from page 1.)

there it is a very short drive back to the original point of departure. The entire drive covers a distance of 26 miles, but the scenery en route cannot adequately be described in more prose. It has to be seen to be appreciated as it deserves. Next to the ascent and descent of the Peak it is a trip that no tourist should omit from his programme of sight-seeing.

Other Places of Interest

Apart from motor launches that take the visitor to Stonecutters' Island and numerous inlets, abounding in most beautiful scenery, there is much to entertain, amuse and instruct without resort to vehicles. The Chinese curio shops and Indian stores cannot well be passed over by those in search of novelty or for a souvenir of their visit to this enchanted Isle.

There is "China Town," teeming with thousands of Chinese living in narrow streets where one can almost stretch hands across the "thoroughfare," and where glimpses may be had of typical Chinese life in all its varied phases.

A good combination is bus or motor car drive to Aberdeen and a tour through the Chinese fishing village. If time permits there is also a quaint little hamlet, Aplichau, which can be reached in a few minutes by sampan. The return journey from Aberdeen can be made by launch, in which case the scenery fringing the harbour approaches will be found very refreshing after the spell through the Chinese quarters of Aberdeen and Aplichau.

For the individual who cares not for the joys of motoring a casual walk through the heart of the city will reveal much of interest in the way of public buildings and statues, including—although some way out—the University of Hong Kong. There are taxicabs and jinrikishas, not to mention sedan

chairs, but in the case of the two latter the legal fare should always be ascertained beforehand as otherwise the "stranger within the gates" may find himself the victim of profiteering.

Chair and Jinrikisha Fares

For chairs the tariff is—two bearers—10 cents for the first ten minutes; 20 cents for a quarter of an hour; 30 cents for half an hour; 40 cents for one hour; and 25 cents for every subsequent hour. For four bearers the fares are exactly double, with the exception that every subsequent hour after the first is charged 40 cents.

Jinrikisha charges are: 10 cents for 10 minutes; 20 cents for a quarter of an hour, 30 cents for half an hour; and 40 cents for an hour.

Kowloon and New Territories

A reference to Kowloon has already been made in the third of the suggested tours—namely, to Castle Peak, Fanling, Taipo and Shatin.

A good afternoon's outing can be spent at Kowloon City, omnibuses to which run from the Star Ferry at Kowloon Point (10 cents fare from Hong Kong to Kowloon). En route a glimpse is afforded of the whole of the Kowloon Bay, with Lyemoon Pass in the distance.

Eventually the granite wall of the old city of Kowloon will be reached, containing the old-time residence of the official representative of the Emperor of China.

There is also a School for the Blind, where dainty articles may be purchased.

Returning by a bus marked "Yaumati" the tourist can alight in Jordan-road and spend an enjoyable time in King's Park, where are laid out football, tennis, and bowls grounds for various Clubs and institutions.

As an alternative a visit may be recommended to Kowloon Tong, which lies off the main bus and motor road in Kowloon, namely, Nathan Road. This is destined to be a model settlement and garden

city combined, and the self-contained houses, each with a strip of garden, are a distinct change from the row upon row of flats which the vehicles pass in Nathan and other roads in Kowloon.

Lovers of lawn bowls

are well catered for. Besides the rinks of the Club de Recreio at King's Park there are bowling greens at the Kowloon Bowling Green Club, in Austin Road (off Nathan Road), the Kowloon Cricket Club, and the Kowloon Dock. Tennis can be had at many Club courts at King's Park, at the United Services Club (opposite King's Park), the Kowloon Cricket Club, and the Kowloon Bowling Green Club. Football

Facts About the Colony

Hong Kong is an island about 10 miles long and from 2 to 6½ miles broad, with a total area of 32 square miles; it lies close to the mainland, being separated at one point by a narrow strait (Leymoon) not more than a quarter-mile wide, and was first occupied by Great Britain in January 1841, and was formally ceded by the Treaty of Nanking in 1842. British Kowloon was subsequently acquired by the Peking Convention of 1860; and the New Territories, being a peninsula in the southern part of the Kwangtung province, by a lease signed June 9, 1898. The whole colony comprises an area of about 891 square miles, with a population (1921) of 662,200 (1925, est. 874,420). The non-Chinese residents, excluding naval and military, numbered about 15,200 (1925, est. 16,500).

A Free Port

The capital of the colony is Victoria, which lies along the northern shore of the island, facing the mainland; and between the mainland and the city is the harbour which is one of the finest in the world, with a water area of some 10 square miles. With the exception of liquor and tobacco the port is free, and is fortified. It possesses excellent docks, capable of holding the largest vessels for the purposes of repair. There is a considerable ship repairing and construction industry. Shipping entered (1923) 26,701,120 tons. A railway, of which 23 miles belong to the Government, runs from Kowloon to Canton; the length north of the Sham Chun River (which is

ADORABLE CURIO SHOPS.

Hong Kong's chief attraction is its adorable curio shops. As you step out of the revolving door of the Hong Kong Hotel into the dry cold which is so stimulating to the visitor, the first object of attention is perhaps the flower market, whose wealth of colour catches the eye at once, but, as you make eagerly in the direction of Flower Street, the fascinating shop windows burst upon you in their full glory each one more entrancing than the last. The variety of articles made to tempt money from the pocket of a Scrooge is amazing and what is still more so is that in all this wealth of choice there is scarcely an unattractive object.

What can one buy? For the collector there is porcelain, old and new, carved ivory, Japanese and Cantonese, enamel work, lacquer, jade, paintings on silk and on rice paper, and among modern work, trifles in Chinese silver and the rather beautiful clear glass fashionable just now. The house-proud may revel in blackwood furniture, Foochow lacquer, lovely Tientsin carpets, or silk embroidered cushions, while the merely vain will sigh for necklaces of Peking crystal, jade, ivory and amber, for gorgeously carved ivory toilet sets. There is something for every taste and for every purpose. It is, however, emphatically a case of "Caveat Emptor" for whatever piece of porcelain the unwary visitor admires promptly becomes Ming or Sung, very cheap, \$50. Now it has to be remembered that Chinese porcelain is a life study and not to be lightly undertaken by a novice, that real Ming or Sung would cost nearer \$500 than \$50, and that experts from all over the world are commissioned by the big dealers to buy fine pieces as they come on the market. In the circumstances it is unlikely that the amateur will make any sensational bargains, and the best line to take is to select something you really like and, disregarding the fancy price asked, offer what it is worth to you. You may not get all the lovely things you covet but you will get a proportion of them. There is one shop, however, where prices are more or less fixed and one may obtain a piece of genuine Sung for \$900 or so; it contains specimens of every kind of object de vertu that China produces and is well worth a visit even from those who have no intention of buying.

Well Designed

Blackwood furniture will attract many. It seems marvellously cheap in Hong Kong compared with Singapore and the small pieces are easily carried back. It must be confessed that much of the modern blackwood furniture being made now is atrocious and too many drawing-rooms in Hong Kong are filled with its funeral contortions to their utter confusion, nevertheless much of it is well made, well designed and well carved and an ounce of taste on the buyer's part will procure some charming examples. Jade is another commodity over which the novice stands a good chance of being really well "done down" and would be wise to seek the help of a connoisseur before spending much money.

It is possible even in the three days allowed, to go to Canton where ivory and wood-carving is carried on, and buy there; the present generalissimo is favourable to the British and the trip can be made at night by steamer returning the following afternoon. There is much to see there but most of us will probably have had enough of travel by water for the time being and be satisfied with bargain shopping in Hong Kong.

WORKS OF ART

**Porcelains and Old
Embroideries**

Hong Kong is the best place in the Far East for picking up good specimens of Native Culture-Craft in endless variety, which comes under the head of Art and Curios.

Of course the difficulty lies in not knowing anything about such treasures, for which ten times their value may be asked, or even more.

"Klenlung" Vase About 1750

A general rule is to quote a high figure allowing ample margin for

bargaining. Native dealers are very shrewd, and from long experience able to gauge the purchasing power of a customer. It is not unfrequently a case of—the "Spider and the Fly."

To avoid this undesirable situation and risk, would it not be better to trust to the old-established firm of Komor & Komor, whose Art Gallery and Silk Rooms are in Des Voeux Road, Alexandra Buildings, where every article (marked in plain figures) is guaranteed to be genuine.

Established throughout the Far East for more than half a century, the name of "Komor" has become a household word with every collector, and in the firm's register—which is always open for inspection—will be seen records of several crowned heads, foreign and Indian Princes amongst other potentates, together with a select galaxy of British and American art collectors.

The late Lord Kitchener who was an ardent collector of old Chinese curios, porcelains in particular, wrote a personal letter to Mr. Komor, one of the founders of the business, expressing high appreciation for services rendered as a special connoisseur—during his stay in India and visit to the Far East.

WM. POWELL, LTD.

Go straight up Ice House Street from the Ferry, cross the tramlines, and you will find Wm. Powell's at No. 10. This is one of the oldest European shops in the Colony and has a reputation as gentlemen's tailors and outfitters of quality, who specialise in tropical wear. They will rig you out to look smart and, at the same time, comfortable.

Suits are made to order within 24 hours from the best materials obtainable, including Palm Beach, drill, cashmere, mohair, and silks. Fit and workmanship are guaranteed to satisfy the most exacting, and prices just right.

Powell's are also agents for the well-known Hawke's sun helmets.

WHERE TO OBTAIN THE BEST VALUES

THE SILK CENTRES

THE BOMBAY STORE

Famous for its low prices and high quality, the Bombay Silk Store is located in D'Aguilar-street, up the slight incline from Queen's Road.

They give real excellent value in all their goods at the Bombay Store. Their stock, which is second to none in this part of the world, comprise houri coats, eelie coats, Mandarin coats, embroidered shawls and silk kimonos of very pretty workmanship and designs, and made of the best material obtainable.

Dresses are to be found here in a wide range of choice, as well as pyjamas, shirts and underwears, and if the ready-to-wear ones do not suit you, orders for made-to-measure garments will be accepted for execution within 24 hours.

The Poncée suits made to order by this store are well known for their quality of material plus good fit and stylish cut.

D. CHELLARAM

D. Chellaram, in Pedder Street, opposite the Hong Kong Hotel have a fine stock of beautiful Chinese shawls which are specially selected by their manager who is a specialist in this line. These shawls comprise a large variety which should satisfy the most exacting purchaser. The same applies to their exquisite Mandarin coats and skirts, the famous old styl dress of China. Hour coats and Japanese kimonos are also stocked, each beautifully embroidered with elaborate designs too pretty to describe.

Shawls are also to be found in these stores in great variety—the best products of Japan, China and India—both in plain colours and printed. Their brocades and crepes are also excellent materials for ladies' dresses, etc.

This store specialises in ladies' hose and men's socks, while its tailoring department undertakes to execute orders for ladies' dresses and pyjamas, and men's shirts and collars within 12 hours, fit being guaranteed.

Other appealing goods worth examining in these stores are beautiful Egyptian tapestry and Persian rugs, as good as any obtainable anywhere in the East.

KASHMIR SILK STORE

Opposite the Queen's Theatre, in Queen's Road, will be found the Kashmir Silk Store, which is also known as the "Palace of Shawls," a claim of which they are justly proud. Their wonderful display of beautiful silk shawls is dazzling and gives one a thrill of pleasure to inspect them. It is a joy to handle them and feel their fine, soft texture, and the desire to own one is irresistible.

Other fine things to be found in this shop are kimonos, houri coats, Persian coats, embroidered silk lingerie, and all qualities of silks in lengths suitable for many purposes.

PIONEER SILK STORE

The Pioneer Silk Store, to give its full name, is situated on the ground floor of China Building facing Queen's Road.

They have a specially selected stock of exquisitely embroidered shawls and old embroidery which represent real value for money.

Other goods exhibited in great variety of colours and pretty designs are Mandarin coats and skirts, silk embroidered kimonos, hour coats, Persian coats and happy coats, all of the very latest styles and especially selected with the greatest care to combine quality with value.

Silk scarves are to be found here in large quantities and colours to suit all tastes. Materials for dresses comprise Japanese, Chinese and Indian silks of very fine texture, brocades, crepes, etc.

At short notice, even within 24 hours, the Pioneer's tailoring department is able to take orders for ladies' silk underwear, men's shirts, pyjamas, etc. Their workmanship is fit and beyond reproach.

TAJMAHAL SILK STORE

This newly opened Indian Silk Store, of which Mr. S. Narain is the proprietor, is fast gaining in popularity on account of its fair dealing—giving you quality goods at reasonable prices. You will find this little shop up Flower Street, some 200 yards beyond the flower stalls, directly opposite the China Mail office.

They have a fine selection of new silks just arrived, representing the latest in fashionable colours and designs—full brocade, regeotte, satin, crepe, crepe de Chine, etc. Ready-to-wear ladies' garments include crepe de Chine embroidered

"undies" and pyjamas; whilst for men there are washing silk shirts, pyjamas, and neckties with handkerchiefs to match.

Other things in this store of interest to ladies are Kayser hose in all shades, exquisite shawls, kimonos, houri coats, and many fancy goods and toys which represent the latest in novelties. This store are also agents in Hong Kong for the well-known "Ohio" cream, hair and down remover.

HONG KONG HOTEL

During your short sojourn here, you will find that the Hong Kong Hotel and the Peninsula Hotel are the best and most aristocratic places to make your temporary headquarters.

The Hong Kong Hotel is situated in the heart of the city. Always well equipped with the most courteous staff of guides, you will be enabled to do your shopping without being "taken in" by any unscrupulous native shop-keepers.

On the other side of the harbour is the Peninsula Hotel, run by the same company. There you will find the same courtesy and service.

EXCELSIOR BOOK STORE

The Excelsior Book Store, with branches in D'Aguilar-street, off Queen's Road Central, at the Hong Kong Hotel, and in the Peninsula Hotel, Kowloon, is one of Hong Kong's leading news agents and book sellers. It has in stock a fine range of best sellers by both British and American authors, and receive by every mail from the United Kingdom and the States, all the leading periodicals, journals, and magazines which appeal to all tastes.

They are also manufacturers of Blackwood furniture both inlaid and carved chairs, tables and stands, all well made and beautifully finished. The shop is at No. 33, Queen's Road Central.

LOCK HING

Here is another of Hong Kong's long established and reliable Chinese firm who have specialised in dealing in Chinese curios since 1870. Some of the pieces to be found in this shop cannot be duplicated. Everything is absolutely genuine, and, best of all, the prices are competitive.

Lock Hing's also deal in fine Shanghai and Canton silks, grass cloths, embroideries, crepes, chie shawls, and ivory, bronze, lacquer and cloisonne ware, porcelain and ornaments of gold and silver, and the work of master craftsmen. Gold and silver jewellery can also be made to order.

NO FIGHTING YET

Peking, Yesterday.
Reliable sources here declare that Feng Yu-hsiang is still at Chienan-tun, outside Taiyuanfu. The leadership of the Kuomintung is at present vested in Lu Chung-lin, who appears to be active in the region of Tungkuang.

While hitherto there has been no declaration from the Kubmin-chun, they seem busy taking advantage of the present situation, and contemplate advancing towards Hankow.

The minor Honan leaders, Wang Ching-yu, Wai Yi-san and others, have sent representatives to Kaifeng, placing their forces under the control of Han Fu-chu. Liu Chen-hua is also reported to be against Nanking.

No fighting has yet occurred, as more than twenty miles separate the Government forces and the rebels on the Lunghai railway.—Reuter.

Suspects

Chicago, Yesterday.
Continuing the recently-inaugurated policy, another wholesale police round-up has brought in 1,124 suspected criminals.

Up to now, 4,100 suspects have been arrested.

Most of the suspects have subsequently been released, and none of the well-known criminal leaders has hitherto been arrested.—Reuter's American Service.

FATAL EXPLOSION

Reading, Penn., Yesterday.
Two persons were killed and seven injured in an explosion at an "alcohol cooking plant" and illicit still, which blew to pieces a large three-storeyed building.

Both the people killed were passers-by.—Reuter's American Service.

CIVIL DISOBEDIENCE

Ahmedabad, Yesterday.
The Congress Working Committee has authorised disciplinary action against Congressmen who have not resigned from the Legislature in accordance with the Congress' decision, or who seek re-election after resignation.—Reuter.

MYSTERIOUS MINISTER

Peking, Yesterday.
Mr. Nelson Johnson, the U.S. Minister, to-day cancelled his social engagements, and it is learned that he is leaving for Nanking by Wednesday's train. The reason for his hurried departure is not known, the Legation stating that it is a routine matter.—Reuter.

RECKLESS IMPRUDENCE

Manila, Feb. 13.
Encouraged by well-wishers mostly classmate at the school of nursing, Philippine General Hospital, Juan Lazo, student nurse of the hospital, yesterday started serving a sentence of four months and a day imprisonment after pleading guilty to the charge of homicide through reckless imprudence before Judge Pedro Concepcion of the court of first instance.

The charge came as a result of the death of a child at the general hospital following an injection of morphine administered by Lazo. Three other children who had been poisoned in the same manner will recover from the effects of the morphine, it was stated at the hospital yesterday.

A Quick Warrant

The prosecution of Lazo, from the filing of the complaint by Assistant Fiscal Francisco Albert, to the pronouncement of the sentence by Judge Concepcion was only a question of a few minutes. Hardly had the complaint been filed and the warrant for Lazo's arrest been issued when the defendant showed up in court and gave himself up to Fiscal Albert. Appearing without counsel, Lazo announced that he was prepared to plead guilty to the charge.

Asked if he wanted a lawyer, Lazo said he saw no need for one, adding "I am sure I understand the complaint." He then pleaded guilty and Judge Concepcion, on recommendation of the fiscal, imposed the minimum penalty.

In the detention cell at the Luneta Police Station, where he is temporarily confined, Lazo admitted to a few loyal friends who had followed him there that he had "made a mistake" when he administered the injection. However, how he made the mistake was still a mystery to him.

Work of Fate

"It was the work of Fate and I have no complaint," the youth said with tears in his eyes. "The work of injecting children was routine with me. In the long period I had been doing the work I always examined the instrument and the substances I used. Last Tuesday, however, was different. I think I was not myself and something went wrong."

While the principal actor in the tragic drama was thus starting to pay his penalty at the Luneta detention cell, other chapters of the tragedy were being enacted elsewhere. At the Philippine General Hospital, doctors and nurses were still working to save the lives of the three children who had received the morphine injections from Lazo. Later in the day announcement was made at the hospital that the three children would recover from the effects of the poison, although they may die of bronchial-pneumonia of which they were suffering when taken to the hospital.

At the home of her parents at 614, Callejon Ramirez, Little Maria Murillo, who succumbed to the poison administered by the student nurse, lay in state.

Death Only Hastened

The post-mortem examination of the body of the girl showed that the morphine injected into her only contributed to hasten her death as she would have died anyway.

This, however, was little consolation for the mother, Teodora Decina, who refused to believe that her daughter would have died of the disease.

"My daughter was strong before the injection was administered," she insisted. "She was playing with a little bell, but immediately after the injection was administered, she shivered, closed her eyes, and was still."

"I screamed and called for help, saying that my daughter had been poisoned. The other three children who had received the injection were in the same condition—all weak and apparently sleepy. Their mothers also were desperate and there was commotion in the ward."

Dr. Abad, who answered our call for help, made inquiries and examined the children. He admitted that the children had been poisoned with morphine.—Manila Bulletin.

WEEK-END RACE NEWS
SHANGHAI JOCKEYS TRY THEIR MOUNTS
DIANA BAY SOUND

[By Wombat]

Wisdom Stag had his first gallop on Saturday morning with Mr. Quincey who has been engaged by Mr. Chan Tin-sion to ride his pony for the annual meeting. Mr. Quincey gave his pony a gallop over the full Derby distance in three-quarter time and sent him home in good time over the last stage of the gallop in 32 seconds. The whole time was clocked in 3:30, which is altogether a very passable performance.

Diana Bay.—The grey mare from the Dunbar string has apparently come sound again as she was tried over a distance of one mile and three-quarters, finishing the last half mile in 1.01.2/5 secs., to finish full of fight in the best time which has been so far recorded viz.—29.2/5 seconds. The whole time was not the best we have seen as a couple of candidates from the Jardine stable have turned in much better times. However, the gallop was very impressive and Diana Bay will be certain to carry lots of money in the classic race of this year's annual meeting.

Tiger's Terrific Stride

The Tiger.—This big strong piebald good looker seems to be getting along fine under the careful handling of his trainer, who is giving him long steady work in an endeavour to develop his terrific stride which will assuredly carry him over long distances in first class racing time.

Mr. G. A. Harriman will be in the saddle, I am told, and as he is our best light-weight jockey it is certain he will give the pony every chance.

Piccallini was sent over a medium distance and created a good impression by the manner in which he strides out at the finishing post. Mr. Noodt was in the saddle and as this gentleman likes his mount it is on the cards that he will win some of the medium distance events at the forthcoming meeting.

Peppercorn's Promise

Peppercorn is out of the same stable and was one of last year's griffins but did not face the start as he went sore at the last moment.

He is a clean cut galloper and will stretch out at the last few strides when properly ridden.

As Mr. Noodt will also have the mount on this pony we can also look to him to reveal some promising performances at the meeting.

African Eve is going great guns and is as strong as hands can make him. His forte is long distances and he can reel them off with clock work precision. Mr. Bowring, a very good jockey, will be up on this healthy black, and if what I hear is true he will give the rest of the field something to think about in any race where Mr. Bowring takes him out.

Royal Hall is one of the best griffins in Mr. Ho Kom-tong's stable and as Mr. Charles Encarnacion is the first jockey no more need be said as he is a very careful rider who can get a China pony to do his best at all times. Mr. Encarnacion will also be riding Marquis Hall in some of his races, so I think we shall see both these ponies in the winning list at the forthcoming meeting.

A First Class Miller

Gay Caballero is a first class miler and although he gets over the distances in a very good style I do not go so far as to think he is capable of getting over the Derby distance.

Orlando is distinctly a sprint pony and may have a chance of

Deacon & Co. Win 'Hong' Foursomes

[From Our Own Correspondent.]

Canton, Yesterday.—The "Hong" Foursomes were played for yesterday and were eventually won by Messrs. Deacon & Company, represented by R. K. Batchelor and A. E. Quinn. To save time this cup was played for under modal rules instead of the usual match play, over 36 holes.

The results at the luncheon interval were as follows:—

Net

Jardine, Matheson & Co. 74

National City Bank 75

Deacon & Co. 76

Canton-Kowloon Railway 77

The best gross score of the morning for nine holes was returned by Jardine, Matheson & Co. represented by Messrs. Galloway and Gansbosi (who incidentally were the lowest handicapped pair).

After lunch Galloway unfortunately drove out of bounds at two holes, while Deacon & Co. proceeded to play excellent golf, their last nine holes being done in 37 gross.

The final results on the day's play were:—

Net

Deacon & Co. 144

Jardine, Matheson & Co. 149

National City Bank 155

Railway 156

There was some good golf seen throughout the day, that played by Deacons and Jardines especially being delightful to watch at times. Batchelor was playing some long balls and Quinn's putting was extremely accurate.

Disappointing Game at the Valley
NAVY SUPERIOR

The Eighth Flotilla beat the Club 11s yesterday afternoon by a goal and a try (8 points) to nil. The state of the ground was not all that could be desired and consequently play was rather scrappy, passing and gathering with any degree of accuracy being nearly impossible. Surtees was the outstanding player of the game, but he lacked support and many of his movements came to nil.

The teams turned out before Major Caddell as follow:

Navy—Surg. Lt. Bolton; Stevens; North, Chambers, Rawnsley; Lt. Cdr. Surtees; Wood; Sub. Lt. Stilgoe, Fennell, Padden, Shute, Smith, Weilham, Paul, and Francis.

Club—Fox; Skinner, Woodman, Kilby, Coppin; Black, Mills, Cherrill, Sutill, Vidal, Beaumont, Cox, Burnell, Buttress, and Stock.

The Navy opened the game with a rush that carried them to the Club twenty-five and Padden made a good attempt to cross, being tackled a few yards from the line.

Footwork by the Club relieved the situation, but the Navy returned and Skinner was hard pressed before clearing to touch.

Constant pressure by the Navy was rewarded when Smith scored near the posts after a five yard scrum. Chambers converted.

Following the kick-off Chambers made a solo effort but was brought down, the ball going out of play.

A good kick to touch from Sutill landed near the Navy line and the Club were in a strong position when half-time whistle blew.

Club Rally.

Several changes in the Club XV improved matters in the second half, but the treacherous ground spoiled several movements. Again in the Club half, Surtees collected the ball and scored rather easily. Padden failed to add the goal points. The Club rallied and looked rather

dangerous near the Navy line, but Padden intercepted a pass and took the ball to midfield. The Club forwards returned to the Navy twenty-five once more and though both sides pressed in turn no further scoring took place. Just before full time Bolton, the Navy back had the misfortune to break his nose, and will be unable to play in the forthcoming Triangular Tournament match against the Army.

To-day's Match

The following teams will be fielded in the triangular tournament match to be played at Happy Valley today. (kick off 5.10 p.m.)—

Club—Back: O. Skinner; three-quarters: G. E. R. Divett, C. J. D. Law, G. C. W. Churchill, G. P. Lammett; half backs: M. D. Scott, J. L. Bonnar; forwards: W. E. Peers, A. D. Sutill, D. L. Milne, F. R. Burch, E. R. West, E. B. Gammell, G. F. Rees, and B. P. Massey.

Army—Back: Pte. Bascombe; three-quarters, Lt. Hughes, Lt. Tregean, Lt. Evans, L/Cpl. Champion;

Half backs: Major Philby, Lt. Mattingley; forwards: Lt. Swaine, Lt. Maxwell, Lt. Burton, Lt. McFarlen, L/Cpl. Mogg, Sgt. Bruno, Sgt. Richardson, and Pte. Bristow.

Referee: Major Caddell.

TENNIS
Easy Win for Paul Kong at H.K.C.C.

Paul Kong, the Shanghai Interport player, who has entered in the Hong Kong Cricket Club tennis tournament under his Chinese name of Kong To-cheung, yesterday defeated T. Akiyama in straight sets. Akiyama was outclassed, Kong's returns constantly hitting him out of position. The Chinese player only conceded five games in the three sets.

E. F. Fincher beat H. Owen Hughes, also in straight sets. He won the first two sets comfortably, but had a stiff fight in the third, which went to 7-5.

The veteran S. E. Green recorded an easy win against Wong Fuk-nam.

F. A. Redmond and A. L. Sullivan beat H. J. Armstrong and O. E. C. Martin in the Open Doubles. This was the best game of the day, and the game went to four sets before the Navy pair pulled off the match. They owed their victory to their consistency, the other pair being spectacular, but patchy.

The Results

Open Singles—Luk Ding-cheung beat D. Mohamed 4-6, 6-2, 7-5; E. F. Fincher beat H. Owen Hughes 6-3, 6-0, 7-6; S. E. Green beat Wong Fuk-nam 6-1, 6-2, 6-2.

Open Doubles—F. A. Redmond and A. L. Sullivan beat H. J. Armstrong and O. E. C. Martin 6-0, 4-6, 6-4, 7-5; C. A. L. Rungjahn and J. A. E. Cassumah beat T. C. Monaghan and E. G. Grigor, 6-0, 6-1, 6-3.

NEW ROME STATION

Government Control of Politics

Up to the present broadcasting has not made much headway, in Italy; its development has been slow, and its popularity strictly limited. With the New Year all this is to change. Rome, says the "Giornale d'Italia", is to have the most powerful wireless station in Europe, with a transmitting capacity of 50 k.w. per aerial.

Broadcasting in Italy is controlled by the "Ente Italiano per le Audizioni Radiofoniche" (Italian Broadcasting Association), which has secured the monopoly of the service for twenty-five years, and has so far established stations of moderate power at Rome, Genoa, Turin, Naples, Milan, and Bolzano. The E.I.A.R. is now facing the enormous expense of the new high-power station in the capital with the help of the Government, which intends to use it for broadcasting important political news throughout Italy and to the African colonies. A special committee will superintend the general programmes, which will be largely composed of concerts and theatrical items.

HOSPITAL'S BROADCAST

A new contribution to the pleasure of the patients in King's College Hospital, Denmark Hill, London was made by two of the nurses in mail week.

An organ recital with songs which they gave in the chapel was, through the internal wireless installation, heard by patients all over the hospital, as well as being enjoyed by those who were present in the chapel.

The Minister of Health has refused sanction to Finsbury Borough Council to borrow £53,000 for building baths and wash-houses. He states that the work is unsuitable for an experiment in direct labour.

Mr. Baron is now to receive official recognition of his services. A notification from the Post Office expresses appreciation of his promptitude and adds that his telephone call to Northforeland would not be denied to his account.

RADIO AT HOME

Sales Campaign Relayed

Broadcasting is now so firmly established in Europe that it is not surprising to learn that the radio industry is in a very flourishing state. The total number of licence holders in Great Britain is rapidly reaching the three million mark, and the British Broadcasting Corporation, which is now a national institution, is developing and expanding every day. All the British stations are linked with telephone cables to each other and to the chief cities of Europe, enabling them to broadcast to their listeners, concerns from all over the continent. These "line-line" relays have hitherto only been adopted by the various broadcasting stations, but recently a British radio company utilised the Post Office telephone lines for a novel and effective relay to inaugurate their sales campaign for the coming season. The occasion was the trade luncheon given by the Mullard Wireless Service Co. Ltd. to the leading wholesale salers throughout the British Isles. In order to permit as many factors as possible to take part luncheons were given simultaneously in London, Manchester, Birmingham, Leeds, Glasgow, Newcastle and Bristol.

Unknown to their guests, the Mullard Wireless Service Company, in co-operation with Post Office engineers, installed a microphone and the necessary amplifying equipment in London, where the main luncheon was to take place, and linked up with the six provincial cities by telephone cable. In each of the remaining cities loudspeaker equipment was installed, and the luncheons were so timed that all the guests reached the coffee stage together. The chairman in London rose and proposed the toast to the King, and simultaneously his guests all over the country rose with him and drank to His Majesty's health. The speeches followed, and by means of the loudspeakers the provincial guests were able to hear of the Company's policy for the new season, as outlined by the chairman in London.

The speeches had to be sent over nearly 2,000 miles of telephone line, and through a network of telephone exchanges and repeater stations. In spite of all these complications, the speeches were heard with perfect clarity.

It is interesting to note that the designing of the amplifiers, their erection, installation and test-out with London was carried out in less than four days before the luncheon took place. This is probably a record in installing a relay system of such size, and reflects great credit on the engineers of the Mullard Company and of the General Post Office.

Interesting Points

The following technical description will be of interest to China Mail readers:

The main amplifier and microphone were installed in Frascati's Restaurant, London, and connected by the G.P.O. trunk line to the six provincial cities, where further amplifiers were used to build up the speech currents to a value sufficiently large to operate the speakers.

The London equipment consisted of a three stage microphone amplifier and six special output stages. Mullard P. M. Valves (P.M. 5 X, P.M. 6D, and P.M. 256) transformer coupled, were used in the microphone amplifier, the output of which was fed to the grids of six Mullard D.F.A. 9 Valves, forming the output stages. Each of these output valves fed G.P.O. trunk line to every city through a choke and transformer, the choke being used to avoid saturation of the transformer primary. Standard Mullard D.F.A. 9 Valves, forming the output stages.

At each of the provincial centres a further amplifier was installed,

consisting of a Mullard P.M. 6D valve, transformer coupled to a D.F.A. 9, the output from which was fed to two Mullard type "H" Pure Music Speakers in parallel.

The prevent overloading, eight volume controls were used in the first amplifier: one across the secondary of the microphone transformer, and one across the primary of each output transformer.

The amplifiers used between the trunk lines and the speakers had one volume control, across the secondary of the intervalve transformer.

There is no doubt that other firms will follow the example thus set by the Mullard Wireless Service Co. Ltd., and the day will probably come when the chairman of a great international combine will address his shareholders all over the world.

He will be in the fortunate position that they will not be able to answer him back.

RADIO SIGNALS

New Australian Safety Device

An automatic radio signalling apparatus invented by the engineers of Amalgamated Wireless (Australia) Ltd. will ensure greater safety for ships fitted with the device. The international agreement regarding the equipment of small vessels with wireless is not as strictly enforced in Australia as in many other countries. Hence there are many passenger ships trading both inter-State and intra-State which are not equipped with radio. It has been claimed that the earnings of such vessels would not justify the salary of a wireless operator or the cost of the equipment. It was to meet conditions of this kind that the apparatus was designed. The transmitter is sturdy, in construction and so simple to set in motion that the transmission of the S.O.S. and other signals can be sent out by any member of the crew, even though he may be unable to transmit Morse signals in the ordinary way. The apparatus looks on first sight like a new kind of phonograph. There are knobs for the releasing of discs on which the signals to be transmitted are engraved. When these discs are set, they are caused to rotate. The motor, which is wound by hand as is that of a photograph, runs for about 16 minutes for one winding. On one of the discs the international S.O.S. signal and the name of the ship are permanently engraved. A second disc can be set in three minutes, giving the latitude and longitude of the ship, or this can be altered to give the position of the vessel as shown on a special chart. The signals are transmitted automatically on a wave-length of 600 metres—that fixed by international law for the transmission of S.O.S. signals by vessels at sea. After the first message, with its preliminary warning signal, has been sent out, the device automatically registers a delay period to permit vessels within receiving distance of the call to communicate with each other and organise assistance. The distress calls are then repeated at regular intervals. Should the danger pass, or a vessel has come to the rescue, another disc can be used to send the signal "no further assistance is required". Arrangements have been made for the installation of 120 of these transmitters on ships engaged in the Australian trade and others are on order. This transmitter, as well as the automatic receiver which responds to the call of the S.O.S. on the 600-metre wave length, were manufactured in the works of the company in Sydney. The apparatus has been tested by the Navigation Department and considered satisfactory. The power for the transmitter is supplied from accumulators which, when fully charged will last for ten hours. Thus the apparatus could be available were there to be a breakdown in the machinery of the vessel in distress. According to present arrangements, the device will be most in demand with the owners of vessels carrying no radio at present, or vessels having only one operator. It could easily be used by another member of the crew in the event of the illness of the operator.

Why Children Grind Their Teeth In Sleep

When children grind their teeth it most usually is a sign that they are troubled with worms. Other symptoms are irregular appetite, bad breath, pain in and swelling of the abdomen, irritation in the nose, failure to make proper progress in development. Administered for a few days Baby's Own Tablets drive out worms, and a marked improvement in appetite and general health speedily follows. As a remedy for infantile indigestion, constipation, colic, vomiting, diarrhoea, and simple fever these tasteless little Tablets have no equal. They allay the pains of teething almost as if by magic, bring restful, comforting sleep in a natural way, are guaranteed absolutely free from opium, narcotics or other injurious drugs. PORTUGAL AND THE ZAMBESI BRIDGE

BRITISH GOVERNMENT TO FINANCE THE SCHEME GOODWILL REQUESTED

Rugby, Yesterday. Asked in the House of Commons whether negotiations had taken place with the Portuguese Government regarding the construction of Zambesi Bridge, Mr. Henderson said that on July 2 last Mr. F. D'A. G. Osborne, British Charge d'Affaires at Lisbon, informed the Portuguese Government that the British Government had for some time past been considering the question of the construction of the bridge and were contemplating the possibility of guaranteeing from Imperial funds the necessary sums. Mr. Osborne expressed the hope that in the event of the British Government deciding to participate in the venture, the Portuguese Government would facilitate construction of the bridge and generally extend their goodwill towards the scheme.

In a reply dated August 1 the Portuguese Government pointed out that the proper guarantees had already been given in connection with the existing concession. The Portuguese Government added that, in the absence of further particulars, they could not make a definite statement, but they gave assurance that they were anxious to facilitate the projected enterprise in every way possible.—British Wireless Service.
